

# SURFING

## Australia in the '60s

by Garry Birdsall

Garry Birdsall was born in Sydney where surfing is a national pastime. He spent all of his leisure time as a youth on the beaches of Sydney. He was one of the pioneers of Malibu surfboard riding and has participated in numerous Australian and world surfing events. He was the first artist worldwide to do airbrushed paintings on surfboards.

Garry's recreation of "Surfing in the '60s" is an authentic, historical depiction of surfing scenes of that era.

Each artwork is signed by Garry and carries a numbered limited edition certificate.

These surfworx of art are genuine, handmade, limited editions which deserve to grace the walls of the best homes in Australia and worldwide. Variations in design and shading are what make them original, unique works of art.
